

EXECUTIVE SUMMARY – LIBRARY BOARDS

Members of the library board are appointed by the taxing agencies contributing to the ongoing operations of the library program.

The Board of ultimate control in the Northeast Georgia Regional Library System is the system board. Each county board has been delegated many activities in our system, making it an ‘affiliated’ system. There are four county boards: Habersham, Rabun, Stephens, and White Counties. Each board appoints one to four of its members to the Regional Library Board.

The main priority of a library board is the setting and maintenance of policy. NEGRS policy is available at www.negeorgialibraries.org.

For more detailed information, please review the slide handout and other information attached.
